

ALEXANDRIA. VA TUESDAY EVENING, APRIL 21.

THE FACULTY and all the other real friends of Cornell University are congratulated by every other right thinking citizan gretted by a large circle of friends.

The country upon the fact that the former of the country upon the fact that the former have vetoed the decision of the senior class of the law school there to invite Mr. Robert G. Icgersoll to deliver the annual address before the students of that school during the approaching commencement week. If Mr. Lagersoll had any other faith to offer in exchange for that he would destroy, he would not be so censurable, but to try to take away from boys and girls a religion which even its enemies say inculcates good morals, and extend to them no substitute, is a monstrous crime, which deserves the severest punishment, rather than the laurels of a pub-

PRESIDENT HARRISON, in one of his recent southern speches said : "I do not doubt today that the Confederate soldiers would be smong the readlest of all our population to follow the old flug if it should be assailed from any quarter." No matter how ready the Confederate soldiers might be to follow "the old flag," they couldn't do so; they wouldn't be allowed to, for ex-Senator E1 munds, of eight to seven, and maple sugar fame, says the statute prohibiting ex-Cou federates from holding any position in the army, shall stand "to show which side was right." According to the recent decisions of the U. S. Supreme Court and the recently in the case referred to did not make might.

MR. CARNEGIE makes a million and ahalf a year by means of the high tariff He is therefore a strong advocate of the protective tariff and a loud-mouthed bawler for the protection of American labor. He recently got a large government contract for heavy guns, but not having the machinery for mounting them, and not being able to make it as cheaply as he could buy it abroad, he, very naturally, has sent abroad for it. But he says his laborers, who can buy clothing much cheaper abroad than at home, shall not send abroad for it, as he does for his ma- as it goes, the other will come from Cumber chinery. Sauce for him, the gander, is not sauce for them, the geese.

THERE COULD be no plainer demonstration of the fact that the prevalent idea about the balance of trade is as erropeous as many other popular fallacies, than the last official report of the foreign trade of England, by which it is seen that the imports of that country for 1889, one of the most prosperous years in the history of England, exceeded its exports nearly a billion dollars. Business is what makes a country thrive, and the more extensive its foreign business the greater its prosperity, for all such business is just so much in addition to that among its own people.

clated silver coinsge-that those they deal with abroad don't want any of it, is proved by the fact that three and a quarter million of scarce, yellow, hard gold had to be ship ped to them from New York last week. When they buy they pay gold, and when they sell they demand the same sort of exchange. And they run no risks of receiving in payment of their goods currency which, though at par to-day, may be depreciated to-mor-

THE CENSUS reports are not at all indicative of the future welfere of this country, inasmuch as they show, not only an immense ircrease in its foreign born and negro population, but that the rate of increase in the city population is greatly in excess of that of the country.

"A bold pessantry, their country's pride, When once destroyed, can never be supplied."

By THE last census bulletin it is observed that while the whole population of Alexandria, city and county, only increased 1,051 during the last decade, the white population increased 1,295, while the negro population decreased 243. The whole population, according to the last census, is 18,597; 11,266 white and 7,331 negro.

WASHINGTON, D. C., April 21, 1891. Judge Thomas Smith, of Warrenton, Va. ex-U S district attorney for New Mexico, was admitted to practice at the bar of the U. S. Supreme Court yesterday. The argument involving the constitutionality of the anti-lottery law will be made in the court referred to next week. The counsel for defendants are confident that they will win the case. The defendants are newspaper proprietors who published lottery advertisements, and who say that Congress has no more right to probibit them from publishing such advertisements than it would have to prohibit them from publishing advertisements of church fairs where prizes are won at reffl is, and that such probibition is an infringement of the Constitution provision for

the liverty of the press.

Commander Reiter who was involved in the Barrundia affair is to be restored to favor. Because the Commander did not protect Gen. Barrrundia he was displaced from the command of his ship, the Ranger, and received a sharp letter of reprimand from Secretary Tracy. That was November 6:b, last year, and since that date the Commander has been sejourning at his home in Putsburg, Pa, under waiting orders. He was to-day given command of the Thetis. at Mare Island, Cal, under com mand of Lieut. Commander Stockton, bility is that taxes will be increased. Capt Frank Hollingsbead, who died here yesterday, was well and favorably known to every body who used to travel on the steam-boats that ran between this city and Aquia Creek, Virginia, before the completion of the Alexandria and Fredericksburg Railroad, and subsequently on the Mt. Vernon boat. He was apparently well on Sunday last, when he and his friend, Mr. Tom. Yates, of Virginia, spent the morning of that day together. In the evening he was taken ill and died of hemorrhage after intense suffering. He was social and generous in his disposition, and his death is re-

The flag on the U.S. House of Representatives is again flying at half mast to-day. This time it is for the death of Congressman elect Ford of Michigan, a good and true democrat. Death has been rife among the memburs of the 52d Congress. As Mr. Ford was elected in a republic m district it is supposed that his successor will be a republican.

The President on his Travels.

At noon vesterday the Presidential party lefe San Antonio for El Paso, on the Mexican border. The proposed meeting between President Harrison and President Disz, of Mexico, at El Paso, was abandoned because under the respective constitutions of the two countries the President ceases to exercise his office when he leaves his own territory, Gov. Carrillo, of Chihuabus, Mex , arrived at E/Paso yesterday, accompanied by his staff, to participate in the reception to be tendered President Harrison to-day. The Governor's staff numbers 25 officers. He turned over etaff numbers 25 officers. expressed views of Secretary Blaine, right to Mayor Caples, of El Paso, the eleventh battalion band of Maxico, consisting of 45 instruments, to participate as ordered by the mayor in the reception. The city is ra-pidly fi lieg up with people from New Mexi co, Arizona and old Mexico.

CANAL DEEDGES -One of the most salient movements on the line of repair of the Chesapeake and Obio Canal is the construction of a canal dredge, near Rock crock, in Georgetown, on which many Alexardria hands are employed. The dredge is one of two that will be built for Cheespeake and Onlo canal managers. The other one is to be built at Cumberland, and while one moves from this end of the capa! dredging land until they meet end the dredging work is done. The dredge will carry its double scoop ahead of its bow, and will be of the most approved style for canal work. It is already somewhat advanced, and will be launched within two weeks, and the ma-chinery will be put in and the boat be ready for work before the opening of June.

AN ADVERTISING HINT. - Advertising should be to a business what fertilizing is to a farm. Artemus Ward wrote: "You may fertilize a farm one, two or three years without any great rosult, but in the end the soil will be so rich that the value of the farm will be largely improved. The fertilizer is apparently lost, so is the advertising, but the value of the business and the value of the farm should be raised sufficiently to make the investment in advertising, or fertilizers, a good one. > BITTEN BY A MAD WOLF .- A dispatch from Cz rnowitz capital of the duchy of Bukowina, says that a mad wolf has spread terror and dismay among a number of families inhabiting a village near that town. The wolf ran amuck through the village, biting or trying to bite any person, male or female, who came across his path. During the course of his mad rage the animal bit, more or less severely, 32 prople. A number of them—all of them, if possible—will be sent to Paris for treatment under the Pasteur

FIFTIETH ANNIVERSARY .- Du ing the Council of the Episcopal church of this diocese, to be hell at Petersburg, Rev. Dr. Churchill Gibson, at whose church the Council mests, will celebrate the fiftieth anniversary of his rectorship. In these days of frequent ministerial changes such an event is remarkable. Dr. Gloson is well known and esteemed throughout Virginia. There is one other noted instance of a long pasterate in the diocese, that of Ray. Dr. Dame, of Danville, who celebrated his jubi lee last year.

SENATOR BARBOUR,-Hon, John S. Barbour, of Virginia, who is at the Fifth Avenue Hotel, has the quiet, self possessed air of a well-ta-lo merchant. He is, however, a successful railroad man and one of the shrewdest politicians to be found in the Old Dominion. Mr. Barbour is also a member of the pational democratic committee of his State, and during the last Presidential campaign it was his skill that placed Gen. Ma-hone outside the breastworks.—N. Y. TREATY WITH FPAIN .- The reciprocity convention between Spain and the United States is based, as far as the United States is concerped, upon the third or reciprocity section of the new American tariff law. Io return for the privilege of free entry into the United States of Aptilles sugar, molasses, coffee or tea, America will obtain exemption from duties on most of her raw and manufactured products and a reduction of the tariff on cereals and figur.

The American controversy has led to a discussion in Rome as to Italy's figancial condition. The Rudini ministry finds it impossible to keep the promise to make both ends meet by economy without further tax-ation. There is a normal deficit of 36 000,-000 francs, and this is increasing rapidly. The only choice is between additional taxes or a reduction of the army to a standard that would remove Italy from efficient membership in the Triple Alliance. The proba-

NEWS OF THE DAY The execution of the seven negroes in the Creek Nation set for yesterday was post-poned, as the men escaped on Sunday night.

Three of them were captured, however. The Ninth regiment of New York volusteers, or Hawkins' Zonaves, yesterday en tertained a delegation of the Third Georgia regiment at the Hotel Brunswick, in Naw York city.

The United States Supreme Court yesterday announced that it would call no cases for argument efter May 1 next. The court will a few days thereafter take a two weeks recess and then adjourn for the term.

In less than two weeks work will be begun on the new building which Taeodore A. Havemeyer proposes to erect on Church street, between Cortlandt and Day streets, has been subdued. The warchouse was New York. The new structure will be 60x used for storage of coffee, sugar and hides.

At the Grand Union Hotel in New York beautiful young woman killed themselves in their room. The couple lay in each ther's embrace, and from the gas-bracket o the mouth of each extended a rubber tube. The couple registered on Sunday as Benrad and wife. The bodies were identified to-day. The girl's name was E Dannheimer. She was an inmate of a Mrs. Miller's dis-orderly house. Paul Behrend, her lover, was a music teacher. He had also stopped at Mrs. Mille:'s.

The Minnesota Legislature adjourned without passing any of the radical bills which had so aroused the fears of the business community and caused so much and such unfavorable comment throughout the country. The bills for the taxation of mortgages, providing severe penalties for usury and lowering the rate of interest; hostile railroad legislation, and all the measures aimed at corporations of all sorts-in fact, about all the semi-communistic and agrarian measures, died in one house or the other, as did also the bill to prevent the wearing of tights on the stage.

VIRGINIA NEWS.

James Phillips, formerly of Staunton, has victim zad several parties in Washington by systematic course of forgeries.

Secretary Blaine declined a reception tendered him last night by the Business Men's Association of Norfolk. The only case before the Court of Appeals

Judge Coles, of the County Court of Pittsylvania, has refused to grant liquor IIcenses at railway stations in the county, ment of British soldiers in all corps of the thirty-sixth parallel of latitude. The judge says nine-tenths of the indictments made in his court from these railway points were due to whisky, and that numbers of the deaths on the railroad recently were caused by the same agency.

The deaf mutes of the State, numbering something less than a thousand, will hold i convention in Richmond on the 4th of July or thereabouts for the purpose of discussing matters relative to their class, generally It is understood that two hundred or more will attend and that all sections of the State will be represented at the gathering, which will be held in the ball of the House of Dalegater. On the first day the exercises will be interpreted orally, and Mayor Ellyson, Governor McK nney, Capt. Toos. Doyle, of the Dest, Dumb and Blind Institute, and others will be asked to take part.

RE MARRIED .-- For the second time Frank P. Gregg, of Newark, Dal., and Missouri C. Jamison, of Cowantown, Cecil county, Md., have entered the matrimonial relation, a license granting them the second privilege baving recently been granted. Mrs. Gregg was granted an absolute divorce from her hueband in Jone, 1886, and allowed to resume her maiden name, as well as given the custody of their child. They settled their quarrels, and are now trying it again.

hare from the British forces advancing upon Manipur bring news of a further defeat of the insurgent tribes. It seems that a large force of Man'puris had been hovering for some days past around General Lockbart's camp. On Sunday last, April 19, the ene my approached nearer to the camp and throughout that night kept up a desultory fire upon the British force, without, however, inflicting much barm upon the latter. The next morning, Monday, the British force made a rapid and skillful advance upon the Manipurie, who were threatening the camp. The engagement was short and the enemy was complately routed. The Manipuris lost about 150 killed and had a number wounded. Only one Englishman was killed and four Englishmen were wounded. All the villages in the vicinity of the camp were burned.

Discontent in the British Army. LONDON, April 21 -Tale morning there is great excitement in military circles caused by a mutinous demonstration in almost every particular similar to that which caused the second battalion of Grenadier Guards to be sent to Bermuda in disgrace, and again it is the famous Grenadier Guards, the orack infantry guardsmen of England, who are in revolt. The third battalion, who are quartered at Chelsea barracks in this city, were ordered to parade in full marching order at 8 o'clock this morning, but the men refused to obey this order. The arguments of the officers eventually had some effect upon the Malvern Hill farm, near Richmond, the langry privates, and after a long period of waiting, four companies straggled slowly and with every mark of discontent out upon the parade ground. The remaining companies, however, refused to leave the barracks. The officials of the war office were notified and the men having the longest terms of service were placed under arrest. The mu tineers declare that they have been long subjected to a series of excessive and an or reason. Popular feeling is almost entirely cause an official investigation into the treat-

Republican League.

CINCINNATI, April 21 -The R-publican League of the United States met here to-day and President Thurston delivered an address. Toe various beadquarters were busy with the preliminary arrangements as well as with an exchange of views with regard to the man who shall be chosen for the presidency of the league. In his speech Mr. Thurston said :

The Farmers' Alliance was undoubtedly an important factor in the last election. It was first organized in the Southern States, where it has declared and proven itself a faithful ally and supporter of democracy. Its organization in the West has also been encouraged by the democratic party, as its membership must be largely drawn from homesteaders, and the veterans whose votes have heretofore made the prairie States certainly and reliably republican. The importance of this movement must not be underestimated by the republican party. The hope of the democratic party to-day is based upon its ability to combine with the alliance on electoral tickets in the Western States, and thereby throw the e'ection of President into the House of Representatives.

MONETARY AND COMMERCIAL

NEW YORK, April 21 -The opening of the stock market this morning was again marked by censiderable activity, but the bulliess was rather better distributed than yesterday. The opening prices were made at only slight changes from those of 1-st evening and while irregular, indicated a firm tone which was continued during the greater portion of the hour, even though some feverishness marked the trading throughout. The pressure of sales to real'z) profits in the early dealings, how ver, drove the list down fractionally. An improvement over the opening figures however, for small fractions followed, but comparative dullness marked the late trading, though the firm tone was maintained, and at 11 o'c'ock the market was quiet but firm to strong at the highest prices of the hour.
